RAPPELLING

Today, the cadets repelled off a 60 foot tower at Otis ANG base. It went very well. And luckily, there were no safety problems. Everyone on the ground as cadets overcame their fears and successfully completed the repel tower. However, other cadets used the time to get some rest, while others used the time to study their OI's, one cadet decided to make a CAP sign out of sticks and stones.

Above, Sgt. Pouliot simulates a fall.

Rescue Attempt planned for Francois

Members of the 2004 MAWG Encampment, disheartened by the fish napping of their beloved mascot, Francois, have vowed that they will stop at nothing to retrieve him, unharmed.

“The BSA terrorists have messes with the wrong people this time”, stated one six foot tall cadet. According to him an elite squad is being formed who will locate Francois’ captors using all of the skills they have learned from years of search and rescue training. The commitment of these cadets facing armed, vicious terrorists without weaponry (which is forbidden to members of the Civil Air Patrol) brought tears to this reporters eyes.

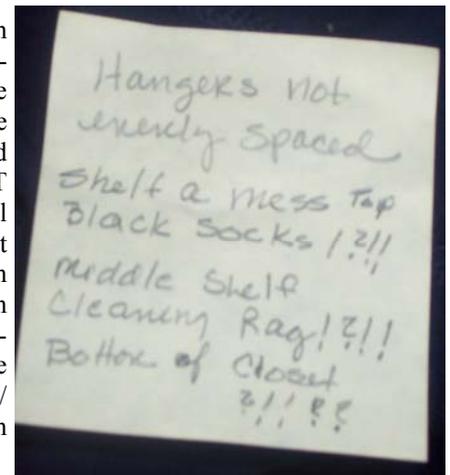

Lt Col Richard Clifford, MAWG Chaplain stated, The lord will protect Francois, and I am sure that he will bless the work of these fine men and women as they attempt his rescue.

The elite rescue team have been training in secret and have not released the exact time they will be departing for the rescue. The remainder of the encampment are continuing with their training. As one young cadet stated, “ We want to be ready to try again if the first attempt dails. We are committed to this rescue and to this Encampment.

The Scoop on SET

The Standard and Evaluation Team does a great job inspecting the cadets and making sure their bunks are in order. In the first picture you see the great and powerful SET pointing to all the items that they found in plain view. In the second picture you see the SET OIC C/ Capt. Sheehan
